

Dear visitors,

please observe the following to protect yourself and others.

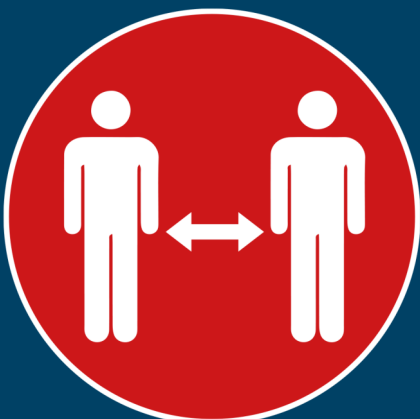

Wear a face covering

Please wear a face covering when you enter the hospital and for the entire duration of your stay.

Regularly disinfect your hands

- when entering/leaving the hospital
- when entering/leaving the patient room
- after contact with mucous membranes (blowing your nose) / after using the facilities (toilet) / after washing and drying your hands

Keep a safe distance

Keep a distance of 1.5 m between yourself and others once you enter the hospital. Also keep this distance in the patient room.

Avoid hugging. Do not attempt to nurse the patient. Please call the nursing staff for this.
